

# COOL UNDER **PRESSURE**

With their new water-cooled motor system, Kärcher's new 'X' Design Pressure Washers deliver unrivalled performance, using less energy.

We all like it when our car is so clean, that our neighbours can see it sparkle. Yet washing the car with a bucket and sponge, or with a low-pressure garden hose, takes a lot of effort. Luckily, those clever people at Kärcher have launched their new 'X' design range of pressure washers. Around the home and garden, a Kärcher 'X' design Pressure Washer gives you cleaning power like no other, and a showroom sparkle with no debacle.

#### THE ONLY WAY TO SPRAY

Kärcher's new 'X' design Pressure Washers are compact and distinctive; you'll look great operating one in your drive or front garden. Moreover, they boast unique features to make them the outstanding pressure washers on the market today. They incorporate a high-tech water-cooled motor system, which not only make the pressure washers quieter and lighter, but also more environmentally friendly. Pressure is variable for convenience, but can produce from 120 Bar to 140 Bar maximum pressure, and can expel between 420 and 460 litres of water per hour. That's remarkable performance. The Plug and Clean detergent system makes applying cleaning fluid, such as car shampoo, quick, clean and easy.

#### USE IT EVERYWHERE

A Kärcher 'X' design Pressure Washer isn't just great for washing cars, it can be used virtually everywhere around the exterior of your home. A grubby outside wall or garden fence will be as good as new after a facelift with a Kärcher 'X' design. If your patio or drive is being taken over by moss or mould, reclaim it with your Kärcher. Getting garden furniture out of storage

#### New features include:

- Water-cooled motor system makes the washer quieter and lighter, saving energy and lasting longer.
- Quick Click connectors to stop the high-pressure hose kinking.
- Plug and Clean detergent system enables you to select the right detergent for the job. Slot it in and go!
- Vario Lances designed to direct power even more effectively.
- Cable storage hook to make the X design extra convenient to use.

ready for summer? Spray it with a Kärcher 'X' design Pressure Washer, and your barbecue guests might think it's brand new.

#### THE ORIGINAL AND THE BEST

Kärcher is the world's number one manufacturer of pressure washers. This family-owned company is currently celebrating its 75th anniversary, and is still leading the way with its innovative new designs. Why compromise with cheap imitations? If you're buying a pressure washer, look for the famous yellow and black, and make sure it's a Kärcher.
